***Reasons for Allowance/Examiner's Comments***

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: none of the prior art alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically regarding independent claim 1, none of the prior art alone or in combination disclose or teach of a translating contact lens as disclosed specifically including a latitudinal ridge that extends outwardly from the anterior surface, and wherein a ramp from a ramped ridge zone to the lenticular zone has a radius of curvature of between 0.1 to 1.0 mm.

Specifically regarding independent claim 46, none of the prior art alone or in combination disclose or teach of a method of producing a translating contact lens as disclosed specifically including a latitudinal ridge that extends outwardly from the anterior surface, and wherein a ramp from a ramped ridge zone to the lenticular zone has a radius of curvature of between 0.1 to 1.0 mm.

***Examiner's Comments***

For applicant's information, the amended abstract and specification amendments filed March 3, 2005 overcome the previous objections to the specification.

Applicant's arguments, see Remarks, filed March 3, 2005, with respect to the double patenting rejection of claims 1-3, 6-7, 15-18, 24, 35-37, and 43 have been fully considered and are persuasive, based on the amendments to the independent claims. The double patenting rejection of claims 1-3, 6-7, 15-18, 24, 35-37, and 43 has been withdrawn.

*Conclusion*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
